

# Arms for tender support model 3390

model	X (mm/inch)	Y (mm/inch)	E (mm/inch)	I (mm/inch)
3390/14	1400 55"	1525 60"	1800 71"	1550 61"
3390/16	1575 62"	1700 67"	1975 78"	1725 68"

Point of support position	loading capacity (kg/lbs)
1	350/800
2	300/700
3	200/450

Couple of folding arms essential for tender support in case platform depth does not allow its housing.

Arms are made of polished stainless steel, manually moved, equipped with a block system in open and closed position and prearranged for fastening of optional cradles.

Variable loading capacity, shape and strokes according to chosen model.
