

HYDRAULIC WATERTIGHT HATCH 2645 FOR RETRACTABLE SLEWING GANGWAY

model	A (mm/inch)	B (mm/inch)	C (mm/inch)
2645	200 7 ⁷ / ₈	485 19"	480 19"

Hydraulic opening device conceived to manage the functioning of the door of box gangways for superyachts. Its specific kinematics allows the 180° overturning of the door box, to be suitable for stairs with special profiles.

An additional cylinder assures box door watertightness.

Standard equipment

- Hinges made of polished AISI 316 stainless steel including hydraulic cylinders
- Beach stepladder made of polished AISI 316 stainless steel
- Hydraulic hoses

Options

- Electronic unit with control panel and remote control
- Hydraulic unit with emergency kit
- Additional cylinder for watertight closing
