Hydraulic opening device conceived to manage the operation of superyachts box gangway doors. Its specific kinematics allow the 180° overturning of the box door, and make it suitable for ladders with special profiles.

An additional cylinder assures box door watertightness.

Standard equipment

- Hinges made of polished AISI 316 stainless steel including hydraulic cylinders
- Beach stepladder made of polished AISI 316 stainless steel
- Hydraulic hoses

Options

- Electronic unit with control panel and remote control
- Hydraulic unit with emergency kit
- Additional cylinder for watertight closing

Certifiable product
