Automatic stern hatch consisting of:
two vertical aluminium doors with simultaneous and opposite side opening and an aluminium roof with vertical opening.
The vertical doors are operated by a pantograph system.
The roof is operated by direct push.

This door can be certified in compliance with RINA/BUREAU VERITAS/LLOYDS requirements, upon request.
ATTENTION! In case of certification request, dimensions and technical specifications may undergo significant variations.
Please get in touch with our technical department to verify possible certifications.
The doors are subject to quality control tests to comply ISO 12216.2023 standards.
