Weather tight pantograph-opening door with double automatic movement, composed of two doors featuring opposite and simultaneous opening. Doors movement and closing managed by hydraulic cylinders and twelve automatic locking pins.

This door can be certified in compliance with RINA/BUREAU VERITAS/LLOYDS requirements, upon request.
ATTENTION! In case of certification request, dimensions and technical specifications may undergo significant variations.
Please get in touch with our technical department to verify possible certifications.
The doors are subject to quality control tests to comply ISO 12216.2004 standards.
