

Jet ski lifting system model 3710

model	A (mm/inch)	B (mm/inch)	C (mm/inch)	D (mm/inch)
3710	2330 92"	1110 44"	1340 53"	2225 88"

Vertical storage system for housing of two jet skis inside a garage. It allows space maximization by taking advantage of the height.
The system is managed by hydraulic cylinders and is fitted with a locking system to be used during navigation.
The system can be combined with a manual slide for jet ski transfer to unloading position.
